

Gerardo García López

garcialopezgerardo6612@gmail.com - <https://github.com/Ch1py7/>

Full-stack developer with 2 years of experience building optimized and scalable applications. Skilled in designing and implementing APIs, database modeling, and developing dynamic user interfaces. Proficient in technologies such as **React**, **TypeScript**, **Node**, **SQL**, and **NoSQL**. Self-taught, proactive, and able to work in multidisciplinary teams using agile methodologies. Willing to learn new technologies.

Work experience

Semi-Senior Frontend Developer

Linktic | Bogota, Colombia | Octubre 2024 – Enero 2025

- Resolved critical bugs, improving data loading times and addressing display issues in web applications.
- Designed reusable features, ensuring modular and maintainable code.
- Optimized system performance, reducing response times in the user interface.
 - Technologies used: Svelte, Tailwind CSS.

Junior Full Stack Developer

Flexor | Guadalajara, Mexico | OCTUBRE 2023 – OCTUBRE 2024

- Developed frontend applications in React, ensuring optimized and responsive interfaces, in collaboration with the backend in .NET.
- Configured the Azure storage connection, increasing the efficiency of file handling.
- Developed dynamic user interfaces connected to APIs, enhancing the user experience.
 - Technologies used: React, Laravel, .NET, SQL/SQL Server, Bootstrap.

Featured Projects

Secrets

- Web application for sharing secrets either publicly (anonymously) or privately between two people using the AES-256-CTR encryption algorithm.
- Technologies: React, TypeScript, Express, MongoDB.

Gitlytics

- Web application that allows you to analyze your GitHub profile.
- Technologies: React, TailwindCSS, GraphQL.

Mist.Space

- Web tool for creating online study environments with positional sound.
- Tecnologías: React, TypeScript, UnoCSS.

Achievements

- First place in the "Hackafor" Hackathon.**
- Dev Roundtable "Frameworks War":** Participated in a debate on Twitch, sharing opinions about the importance of programming fundamentals versus the fanaticism for specific frameworks.
